Labelling according to Directive 67/548/EEC-1999/45/EC (DSD/DPD)

Labels

environment

R-phrases

- 36/38 Irritating to eyes and skin 50/53 Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment 67 Vapours may cause drowsiness and dizziness S-phrases Keep out of the reach of children 02 16 Keep away from sources of ignition - No smoking 23 Do not breathe spray (If swallowed, seek medical advice immediately and show this container or label) (46) 51 Use only in well-ventilated areas Avoid release to the environment. Refer to special instructions/safety data sheets. 61 Additional recommendations Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use.
 - Do not spray on a naked flame or any incandescent material.

2.3 Other hazards:

CLP

- May be ignited by sparks
- Gas/vapour spreads at floor level: ignition hazard Aerosol may explode under the effect of heat

DSD/DPD

May be ignited by sparks Gas/vapour spreads at floor level: ignition hazard Aerosol may explode under the effect of heat

SECTION 3: Composition/information on ingredients

3.1 Substances:

Not applicable

3.2 Mixtures:

Reason for revision: CLP

Publication date: 2009-02-10 Date of revision: 2014-10-20

Revision number: 0301

(1) For R-phrases and H-statements in full: see heading 16

(2) Substance with a Community workplace exposure limit (10) Subject to restrictions of Annex XVII of Regulation (EC) No. 1907/2006

SECTION 4: First aid measures

4.1 Description of first aid measures:

General:

If you feel unwell, seek medical advice.

After inhalation:

Remove the victim into fresh air. Respiratory problems: consult a doctor/medical service.

After skin contact:

Wash immediately with lots of water. Soap may be used. Take victim to a doctor if irritation persists.

After eye contact:

Rinse immediately with plenty of water. Do not apply neutralizing agents. Take victim to an ophthalmologist if irritation persists.

After ingestion:

Rinse mouth with water. Do not induce vomiting. Consult a doctor/medical service if you feel unwell.

4.2 Most important symptoms and effects, both acute and delayed:

4.2.1 Acute symptoms After inhalation:

EXPOSURE TO HIGH CONCENTRATIONS: Central nervous system depression. Headache. Dizziness. Feeling of weakness.

After skin contact:

Tingling/irritation of the skin. ON CONTINUOUS EXPOSURE/CONTACT: Dry skin. Cracking of the skin.

- After eye contact:
- Irritation of the eye tissue.
- After ingestion:
- No effects known.
- 4.2.2 Delayed symptoms No effects known.

4.3 Indication of any immediate medical attention and special treatment needed:

If applicable and available it will be listed below.

SECTION 5: Firefighting measures

5.1 Extinguishing media:

- 5.1.1 Suitable extinguishing media: Water spray. Polyvalent foam. BC powder. Carbon dioxide.
- 5.1.2 Unsuitable extinguishing media: No unsuitable extinguishing media known.
- 5.2 Special hazards arising from the substance or mixture: Upon combustion: CO and CO2 are formed.

Reason for revision: CLP

Publication date: 2009-02-10 Date of revision: 2014-10-20

Revision number: 0301

Product number: 47925

3/18

5.3 Advice for firefighters:

5.3.1 Instructions:

If exposed to fire cool the closed containers by spraying with water. Physical explosion risk: extinguish/cool from behind cover. Do not move the load if exposed to heat. After cooling: persistant risk of physical explosion. Take account of environmentally hazardous firefighting water. Use water moderately and if possible collect or contain it.

5.3.2 Special protective equipment for fire-fighters:

Gloves. Protective goggles. Head/neck protection. Protective clothing. Heat/fire exposure: compressed air/oxygen apparatus.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures:

Stop engines and no smoking. No naked flames or sparks. Spark- and explosionproof appliances and lighting equipment. 6.1.1 Protective equipment for non-emergency personnel

See heading 8.2

6.1.2 Protective equipment for emergency responders

Gloves. Protective goggles. Head/neck protection. Protective clothing. Suitable protective clothing

See heading 8.2

6.2 Environmental precautions:

Dam up the liquid spill. Use appropriate containment to avoid environmental contamination.

6.3 Methods and material for containment and cleaning up:

Take up liquid spill into absorbent material. Scoop absorbed substance into closing containers. Carefully collect the spill/leftovers. Clean contaminated surfaces with an excess of water. Take collected spill to manufacturer/competent authority. Wash clothing and equipment after handling.

6.4 Reference to other sections:

See heading 13.

SECTION 7: Handling and storage

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

7.1 Precautions for safe handling:

Use spark-/explosionproof appliances and lighting system. Keep away from naked flames/heat. Keep away from ignition sources/sparks. Gas/vapour heavier than air at 20°C. Observe normal hygiene standards. Remove contaminated clothing immediately.

7.2 Conditions for safe storage, including any incompatibilities:

7.2.1 Safe storage requirements:

Storage temperature: < 50 °C. Store at room temperature. Keep out of direct sunlight. Ventilation at floor level. Fireproof storeroom. Protect against frost. Meet the legal requirements. Max. storage time: 1 year(s).

7.2.2 Keep away from:

- Heat sources, ignition sources.
- 7.2.3 Suitable packaging material:

Aerosol.

7.2.4 Non suitable packaging material:

No data available

7.3 Specific end use(s):

If applicable and available, exposure scenarios are attached in annex. See information supplied by the manufacturer.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters:

8.1.1 Occupational exposure

a) Occupational exposure limit values

If limit values are applicable and available these will be listed below.

| The Netherlands | |
|-----------------|---|
| Aceton | Time-weighted average exposure limit 8 h (Public 501 ppm occupational exposure limit value) |
| | Time-weighted average exposure limit 8 h (Public occupational exposure limit value) 1210 mg/m ³ |
| | Short time value (Public occupational exposure limit 1002 ppm value) |
| | Short time value (Public occupational exposure limit 2420 mg/m ³ value) |
| Ethylacetaat | Time-weighted average exposure limit 8 h (Private 150 ppm occupational exposure limit value) |

Protective Brovironmental exposure cont | y. es, such as personal pro rds. Do not eat, drink or if conc. in air > exposu e clothing. | smoke during work. | Publication date: 2009- | 02-10 |

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties:

| Physical form | Aerosol |
|---------------------------|--|
| Ddour | Characteristic odour |
| Odour threshold | No data available |
| Colour | No data available on colour |
| Particle size | No data available |
| Explosion limits | No data available |
| lammability | Extremely flammable aerosol. |
| .og Kow | Not applicable (mixture) |
| Dynamic viscosity | No data available |
| Kinematic viscosity | No data available |
| Velting point | No data available |
| Boiling point | No data available |
| Flash point | No data available |
| Evaporation rate | No data available |
| Relative vapour density | >1 |
| /apour pressure | No data available |
| Solubility | No data available |
| Relative density | 0.8 |
| Decomposition temperature | No data available |
| Auto-ignition temperature | No data available |
| Explosive properties | No chemical group associated with explosive properties |
| Dxidising properties | No chemical group associated with oxidising properties |
| DH | No data available |

9.2 Other information:

Absolute density

SECTION 10: Stability and reactivity

10.1 Reactivity:

May be ignited by sparks. Gas/vapour spreads at floor level: ignition hazard. No data available.

800 kg/m³

10.2 Chemical stability:

Stable under normal conditions.

10.3 Possibility of hazardous reactions: No data available.

10.4 Conditions to avoid:

Use spark-/explosionproof appliances and lighting system. Keep away from naked flames/heat. Keep away from ignition sources/sparks.

10.5 Incompatible materials: No data available.

10.6 Hazardous decomposition products:

Upon combustion: CO and CO2 are formed.

SECTION 11: Toxicological information

11.1 Information on toxicological effects:

11.1.1 Test results

Acute toxicity

Adhesive Remover

No (test)data on the mixture available

acetone

Conclusion

Contains component(s) with potential for mobility in the soil

12.5 Results of PBT and vPvB assessment:

Does not contain component(s) that meet(s) the criteria of PBT and/or vPvB as listed in Annex XIII of Regulation (EC) No 1907/2006.

12.6 Other adverse effects:

Adhesive Remover

Global warming potential (GWP)

None of the known components is included in the list of fluorinated greenhouse gases (Regulation (EC) No 842/2006)

Ozone-depleting potential (ODP)

Not classified as dangerous for the ozone layer (Regulation (EC) No 1005/2009)

ethyl acetate

Ground water

Ground water pollutant

SECTION 13: Disposal considerations

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

13.1 Waste treatment methods:

13.1.1 Provisions relating to waste

Waste material code (Directive 2008/98/EC, Decision 2000/0532/EC).

20 01 29* (separately collected fractions (except 15 01): detergents containing dangerous substances). Depending on branch of industry and production process, also other waste codes may be applicable. Hazardous waste according to Directive 2008/98/EC.

13.1.2 Disposal methods

Remove waste in accordance with local and/or national regulations. Hazardous waste shall not be mixed together with other waste. Different types of hazardous waste shall not be mixed together if this may entail a risk of pollution or create problems for the further management of the waste. Hazardous waste shall be managed responsibly. All entities that store, transport or handle hazardous waste shall take the necessary measures to prevent risks of pollution or damage to people or animals. Specific treatment. Do not discharge into drains or the environment.

13.1.3 Packaging/Container

Waste material code packaging (Directive 2008/98/EC).

15 01 10* (packaging containing residues of or contaminated by dangerous substances)
