## DuPont de Nemours (Luxembourg) S.à.r.l.

## EC Directive 89/686/EEC

**EC Type-examination** 

Issue 1.

**PPE Product** 

DuPont® (logo) Tyvek® Classic Xpert model CHF5a, hooded coverall, manufactured from a white nonwoven fabric, with sewn external seams, a front zip closure with flap and elasticated at the hood, cuffs, ankles & the back of the waistline. This coverall is available in six nominal sizes.

It is certified that the manufacturer's technical file and the above mentioned PPE have been assessed and found to be in accordance with the requirements of Council Directive 89/686/EEC. When examined the PPE satisfied the requirements in the relevant harmonized standards:

EN ISO 13982-1:2004 + A1:2010 (Type 5: Limited life, full body protection against airborne solid particulates);

EN 13034:2005 + A1:2009 (Type 6: Limited life, full body chemical protective clothing offering limited protection against liquid chemicals);

EN 14126:2003 (Type 5-B, 6-B: Limited life, full body protective clothing against infective agents);

EN 1149-5:2008 (Protective clothing - Electrostatic properties) for electrostatic dissipative protective clothing with a surface resistance of  $\leq 2.5 \times 10^9 \,\Omega$  on both surfaces of the garment.

In addition with one exception the PPE satisfied the requirements of EN 1073-2:2002 (Non-ventilated protective clothing against particulate radioactive contamination) for a performance classification of TIL Class 2. The exception is that clause 4.2 still requires resistance to ignition, whereas the same requirement has been removed from the Type 3, 4, 5 & 6 standards in revisions. Hence the resistance to ignition was not tested on this coverall.

The manufacturer's information notice (Tyvek® ClassicXpert February 2017 / 24 / V2, IFUTCX\_001), in English, has been inspected and found to have addressed all of the relevant requirements of the standards. However, the detailed content of the information notice is the responsibility of the manufacturer, as are translations into other languages.

This certificate is issued on the strict condition that appropriate checks on manufactured PPE, as detailed in Article 11 of the Directive are implemented and maintained while the model is in production.

Certification is based on technical file reference: Tyvek® Classic Xpert model CHF5a March 2017.
