

AirMedic Pro 6 Plus Exec

Heavy-Duty Air Filtration for Contaminated Environments

Designed primarily for removing heavy concentrations of chemicals and odors, this unit features a significant 22-23 lb. deep-bed carbon filter, a 21st century technology superHEPA filter for particles 3 times as effective as a medical-grade HEPA filter, which is 1940's technology, and an easy-clean pre-filter.

Why AllerAir Air Purifiers

Backed by unparalleled expertise in air quality control and a superior filtration system, AllerAir air cleaners are individually customized to target the airborne pollutants of concern in the environment. Our units offer more filtration media than any other manufacturer, with the deepest carbon bed filters for chemicals, gases and odors, and superior superHEPA filters for particle control.

Cleaner Indoor Air

Clean air is recognized as a vital component for overall comfort, workplace health and safety as well as productivity. According to research from leading organizations like the EPA, WHO and Health Canada, indoor air pollution may pose more of a public health risk in North America than outdoor air pollution.

Green Features

- All-metal housing
- Ozone-free filtration technology
- Energy efficient
- Refillable carbon canisters
- Styrofoam free
- North American sourced parts and materials
- North American assembly

Technical Specifications

Carbon Filter	22-23 lb., 3" depth
HEPA Filter & Pre-filters	superHEPA wrap, Pre-filter
Options	UV Light, Custom Carbon Blends
CFM	400 Free flow
Voltage	115V/60Hz or 230V/50Hz
Dimensions	23.5" (height) x 15" (diameter)
Shipping Weight	Approx. 54 lbs. 2 boxes
Available Colors	Black, White, Sandstone
