

## FM-1 KN95 Face Mask

While single layer masks can help keep you safe during light construction or cleaning activities, they offer little protection against very small particles traveling through the air. For protection against very small particles, a mask with filtration material is often required.

Our KN95 masks conforms to the most stringent filtration

standards. Our Disposable KN95 mask provides protection against non-oil-based particles such as those resulting from wildfires, PM 2.5 air pollution, volcanic eruptions, or bio aerosols. They are extremely durable, have a soft and comfortable inner surface, and an adjustable nose piece to provide proper fit.

## KN95 Mask Features:

- High filtering ability, extremely low resistance and easy to breathe
- Are glue-free and odorless
- Powerful filtration system which prevents dust, small particles, mist and other pollutants from entering the respiratory tract
- Soft and flexible nose bridge, can be adjusted independently to the face.

## Product Description:

**Material:** Non-woven, Melt Blown Filter

**Type:** KN95 Mask

**Certification:** FDA, CE, ISO

**Protection:** Dust, Pollen

**Color:** White

**Ctn. Size:** 26.8 x 11.8 x 16.2 in

**Packaging:** 10 Pieces per Box  
50 Boxes per Case

## Technical Specs:

**Item:** Disposable Mask

**Filter Class:** KN95

**Exhalation Valve:** No

**Nose Clip:** Yes

**Face Seal:** None

**Mask Size:** Universal

**Nuisance Odor Removal:** None
