

FM-2A

Advoque NIOSH Certified N95 Respirator

The Advoque SafeGuard N95 Particulate Filtering Respirator is designed to help provide reliable respiratory protection of at least 95% filtration efficiency against certain non-oil based particles such as those from grinding, sanding, sweeping, sawing, bagging, or other dusty operations.

This respirator can also help reduce inhalation exposures to certain airborne biological particles (mold, Mycobacterium Tuberculosis, etc.) but cannot eliminate the risk of contracting infection, illness, or disease. This respirator is compatible with a variety of protective eyewear and hearing protection

TC-84A-9284

N95 Mask Features:

- Made in the USA
- Ultra-lightweight material delivering excellent fit and breathing comfort
- Filtering Facepiece Respirator solution when both respiratory protection and source control needed
