N95 Respirator

The N95 respirator is a particle-filtering respirator with a filter efficiency $\geq 95\%$. The flat-folding respirator provides reliable and effective protection against particles so small that they cannot be seen by the naked eye. The special feature of the mask is its innovative three-part design. This means that the chin area of the mask as well as the upper part (including the nose bridge) are folded out before use. This not only makes it easier to transport and store the respirator, but also increases wearing comfort. Due to this innovative design, the mask adapts perfectly to the shape of your face and also ensures a secure hold during facial movements.

5 LAYER FILTER

Effectively prevent PM 2.5

Finally, it should be mentioned that this N95 respirator has been successfully tested and certified by various testing institutions. Vizocom's N95 Respirator masks conforms to FDA standards. Our Disposable N95 mask provides protection against solids such as minerals, coal, iron ore, flour and certain other substances.

N95 Mask Features:

- BFE \geq 95% ~ 98%
- 5 Ply with Exceptional Internal Filter for Low Breathing Resistance
- PM2.5 filter helps to prevent dusts and other small particles
- Extremely Adaptive to Facial structure
- Individually Adjustable Nose Clip for Excellent fit
- Elastic Head-Straps for Secure Seal
- Deformable Nose piece to reduce Chaffing

Product Description:

Material: Non-Woven Fabric with a High Efficiency Filter Melt Blown Fabric Material

Type: N95 Particulate Respirator

Protection: Germs, Dust, Pollen

Certification: FDA

Color: White

Package Size: 61*39*43cm / 24*15.5*17 In

Packaging: 30 Pieces per Pack, 36 packs per box

Technical Specs:

Item: Disposable Respirator

Respirator Filter Class: N95

Exhalation Valve: No

Nose Clip: Yes

Face Seal: None

Mask Size: Universal

Nuisance Odor Removal: None

Respirator Shape: Molded
