

FM-3 RTMED Respirator N95-V1

Our N95-V1 respirator comes with 5 layers of non-woven fabric. They are breathable with no discomfort, and they are skin-friendly and soft. This product can be used in various indoor and outdoor settings and works against air pollutants, pollen, allergies and dust particles. Our disposable N95 mask provides protection against solids such as minerals, coal, iron ore, flour, and certain other substances.

Each N95-V1 Respirator is individually wrapped which prevents any problems or concerns around sanitization and sterilization during the shipment process. The mask has adjustable straps that wrap around your head for a tight seal and comfortable fit.
