

FM-8C 3-Layer Cloth Mask

Cloth face coverings are recommended as a simple barrier to help prevent droplets from traveling into the air and onto other people when the person wearing the cloth face covering coughs, sneezes, talks, or raises their voice.

This is based on the evidence from clinical and laboratory studies that shows cloth face coverings reduce the spray of droplets when worn over the nose and mouth. The use of cloth face coverings is particularly important in settings where people are close to each other or where close contact with other people is required and social distancing is difficult to maintain.

Cloth Mask Features:

- 3-ply washable Cloth Face Mask with elastic ear loops
- Soft, stretch elastic band loops for comfortable fit around ears
- Comfortable, reusable cloth mask for daily use
- Maximum coverage of nose, mouth and chin when fully expanded

Product Description:

Material: 70% Polyethylene, 30% cotton

Protection: Dust, Pollen

Filter: middle layer, SMS

Sizes: XS, S, M, L, XL

Case Size: 19.7" x 15.7" x 15.7"

GW / Case: 48.5 LB

Packaging: Individually packed
1200 Pcs per case

Technical Specs:

Item: Reusable and washable (30 times)

Ear Loops: Yes

Exhalation Valve: No

Nose Clip: No

Color: Custom color with logo

Face Seal: None
