Synmax Vinyl Hybrid Medical Exam Gloves

Our Synmax Vinyl Hybrid Medical Exam Gloves contain no natural latex protein, causes no allergies, and offers affordable and effective safety and hygiene in various work environments for the medical, industrial, and food handling applications.

New revolutionary formula of vinyl-based hybrid material contains nitrile and has latex-like properties and elasticity. They offer enhanced tactile sensitivity and a practical barrier of protection for a wide range of applications. They are also a good alternative for those suffering from allergies.
