Nitrile Gloves:  
Superior protection  
that flexes, Gloves  
that flow.

# MG-C24C9 SHOWA 4 MIL BLUE NITRILE BIODEGRADABLE GLOVES

Engineered with SHOWA's revolutionary Eco Best Technology® (EBT), the SHOWA 7500PF disposable glove is biodegradable, achieving 82% biodegradation in 386 days in a laboratory.

A rolled cuff prevents dirt from entering, and the powder and latex-free design reduces risk of discomfort and allergies. Textured surface grip makes wet work safer and easier.

Made of 100% nitrile, thicker and textured for better grip, resistant to penetration and permeation by chemotherapy drugs, which can be hazardous to healthcare workers who handle them without proper protection.

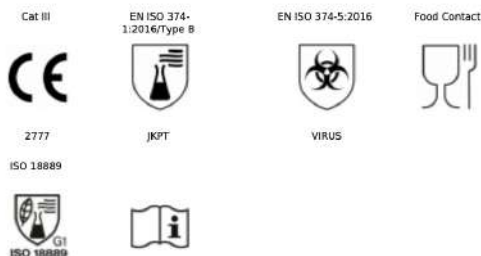

Our gloves have been tested and certified to meet certain standards for chemical resistance. They are commonly used by healthcare workers who handle chemicals during preparation, administration, or disposal. They are also used by patients who are undergoing treatment and need to handle their own medications at home.

## BENEFITS

- 4 Mil, Cleanroom Eco-friendly biodegradable Nitrile Gloves
- Exceptional strength and durability
- High resistance to oil and grease
- Great protection against chemicals
- Good alternative for those with latex allergies
- Beaded Cuff for easy removal
