Clean Room Techniglove 5 Mil Sterile White Class 100 Nitrile Gloves

Clean Room TechNiGlove bulk packed Sterile 12" ambidextrous Class 100 nitrile gloves offer the benefits of a sterile glove with the economy of a bulk packed item.

Gloves are sterilized by gamma irradiation to meet AAMI and ASTM standards. They are approved for use in both USP797 and chemotherapy applications. Each case is marked with batch numbers to meet internal QC requirements and ensure full product trace-ability.

Made of 100% nitrile, thicker and textured for better grip, resistant to penetration and permeation by chemotherapy drugs, which can be hazardous to healthcare workers who handle them without proper protection.

Our gloves have been tested and certified to meet certain standards for chemical resistance. They are commonly used by healthcare workers who handle chemotherapy drugs during preparation, administration, or disposal. They are also used by patients who are undergoing chemotherapy treatment and need to handle their own medications at home.

BENEFITS

- 5 Mil, Sterile certified by AAMI & ASTM
- Exceptional strength and durability
- High resistance to oil and grease
- Great protection against chemicals
- Good alternative for those with latex allergies
- Beaded Cuff for easy removal
