

MG-D355W Diamond Advance Latex Industrial Gloves

The Diamond Advance latex industrial glove is designed and specially made for heavy duty work, handling rough materials, general cleaning, handling chemicals, and construction and maintenance work.

The latex gloves have superior barrier properties and they are most popular with food services, nail salons, and janitorial professionals. They are designed to provide maximum flexibility and comfort. They are not restrictive or constricting, even when worn for long durations.

These industrial gloves are ideal for industrial tasks such as food preparation, janitorial and cleaning, and general maintenance. These gloves are a benchmark for barrier protection due to its strength and elasticity.
