

MG-128 & MG-128B INTCO 8 Mil Diamond Textured Nitrile Gloves

The INTCO 8 Mil diamond-textured nitrile gloves come in orange or black. They provide premium protection & enhanced durability. They are latex free and powder free, and they are a superior choice for people with allergies or sensitive skin.

The gloves have very good stretch, and its thickness ensures they have excellent resistance to tears, abrasions, and punctures.

The raised diamond texture channels away liquid, ensuring excellent grip in any condition, providing functionality for applications such as automotive, janitorial, plumbing, painting, manufacturing, and many other industrial tasks.
