# INTCO 3 Mil Black Vinyl Synmax Exam Gloves

Vinyl gloves offer both tactile sensitivity and barrier protection from a large number of common chemicals and cleaning solutions. Vinyl is less elastic than nitrile and latex, giving it a loose fit and a smoother, more comfortable feel.

Our INTCO 3 mil Black Vinyl Synmax Exam Gloves contain no natural rubber latex and are manufactured without powder - a safe solution for those affected by common glove allergies and sensitivities. The gloves have a smooth finish for greater tactile feedback and is the right thickness for most uses.

These lightweight, one-time-use vinyl gloves give you unrestricted movement all day long. Vinyl gloves are well-suited for the food industry, as well as janitorial and sanitation, plumbing, factory and assembly line use, and countless others that require frequent glove changes.

Price	
1-9	\$46.00/case
