

MG-J24F Josen 4.5 Mil Blue Nitrile Chemo Exam Gloves

The Josen 4.5 mil blue nitrile chemo examination gloves are approved for protection from chemotherapy drugs. They can minimize potential exposure to hazardous chemicals including fentanyl. The gloves keep you safe from 50 chemotherapy drugs. They are 100% Latex-free and powder-free, and they are good alternatives to latex gloves. They keep you away from allergies caused by latex and powder, they are especially suitable for sensitive skin.

The 4.5 mil finger thickness provides excellent puncture resistance to rips and tears. They have excellent elasticity that offers a stretchy and flexible fit for wearers, providing comfort for long-term wear. Textured fingers and beaded cuffs provide a better grip. These gloves are not limited to chemotherapy and medical exams, they can also be used for cleaning, dental care, home use, hairdressing, tattoo, food services, and many other scenarios.
