# Josen 3.5 Mil Vinyl Synthetic Exam Gloves

The Josen 3.5 Mil Vinyl Synthetic Exam Gloves are made of vinyl composite material, which is a blend of nitrile and vinyl. It is extremely durable with a soft skin feel. The wear-resistance is more than ten times higher compared to paraffin wax gloves. They are 100% latex-free and powder-free vinyl synthetic gloves. They keep you away from irritations caused by latex and powder, they are especially suitable for sensitive skins. It's the ideal choice for people with latex related allergies.

Price	
1-9	\$42.00/case
10-74	\$37.00/case
Above 75	\$27.00/case

The increased softness and excellent elasticity provide a comfortable fit and smooth feel. Suitably fits hand shape with flexible cuff making it easy to wear. These medical gloves offer excellent tactile sensitivity, puncture resistance, as well as comprehensive protection and strong toughness. These vinyl synthetic gloves are not only for medical examination use, they are designed to be used in a variety of scenarios: health care, dental care, lab work, food services, auto works, home use, and cleaning.
