Josen 4.5 Mil Blue Nitrile Examination Gloves

The Josen 4.5 mil blue disposable nitrile exam gloves are medical nitrile gloves that are tested as more durable than latex and other types of gloves. They have excellent resistance to various chemicals, punctures, tears, and hazardous liquids making them ideal for medical examinations.

The gloves are 100% latex-free and powder-free, making them a good alternative to latex gloves.

Keeping you away from irritations to latex and powder, they are especially suitable for sensitive skins. They have high flexibility and good fit, with beaded cuffs to provide the wearer comfort and secure fit, making it easy for donning and taking off. Combined with finger textured surface, these nitrile gloves offer great grip to fit delicate work. They are not limited to medical exams, these gloves can be used for cleaning, dental care, home use, hairdressing, tattoo, food services and many other scenarios.
