SpeedySwab Rapid COVID-19 Antigen Self-Test

SpeedySwab is an FDA EUA authorized Rapid Antigen Self-Test designed for nasal application and is highly effective in detecting all COVID-19 variants and sub-variants. The test uses the long-proven Lateral Flow Assay (LFA) technology.

1x Swab

1x Test Card in Pouch

1x Test Tube

1x Dropper Top

1x Buffer Solution

In three easy steps, simply swirl the soft tip of the nasal swab ½" to ¾" into each nostril for 15 seconds, insert the swab into a test tube with a buffer solution, and apply 3 drops onto the test card. Results will be available in 15 minutes.

SpeedySwab has a reliable design supporting highly sensitive detection of variants and sub-variants. Its simple format is designed for self-administration on adults, or by adults on children for ease of use. And the single test box comes in a convenient size, 5 ½ inches, making it perfect for on-the-go testing.

Features:

- Highly Sensitive - detects proteins from SARS-CoV-2 (COVID-19) variants and subvariants
- Rapid Results - provides highly reliable results in 15 minutes
- Reliable - designed for self-administration ease of use
- FDA EUA Authorized

Sizes:

SpeedySwab is conveniently sized for all your testing needs:

1 Test/Box: 5.5 x 2.5 x 0.75 inches
2 Tests/Box: 5.5 x 2.75 x 0.875 inches
4 Tests/Box: 5.875 x 3 x 1.5 inches
25 Tests/Box: 9 x 5.7 x 2.75 inches

Components:

1 x Test Card
1 x Buffer Solution
1 x Sterile Swab
1 x Test Tube
1 x Dropper Top
1 x Tube Holder
1 x Instructions for Use

1x Swab
