

TI-5 Infrared Thermometer

Infrared thermometers are temperature sensing devices that use electromagnetic radiation to make non-contact surface temperature readings.

This allows for fast and touchless measurements from a safe distance. Our non-contact infrared thermometers reduce cross-contamination risk and minimize the risk of spreading disease.

Infrared Thermometer Features:

- Measures body temperature without physical contact
- Non-contact approach reduces the risk of spreading disease between people being evaluated
- Easy to use, clean, and disinfect
- Measures temperature and displays a reading rapidly, can retake a temperature reading quickly

Product Description:

Color: White
Measuring Part: Forehead
Measuring Distance: 1.2-2 in
Power Supply: DC 3.0V (2 pcs AAA Battery)
Fever Alarm: Yes (Three Colors Light)
Measuring Duration: 1s
Automatic Stop: 7s
Memory: 99 Measurements
Package Size: 5.86 X 3.74 X 1.77 in
Packaging: 1 Piece per Pack

Technical Specs:

Measuring Range:

Body: 89.6-109.2 °F,
Surface: 32.0-212 °F
Animal: 89.6-113 °F

Measuring Precision:

Body: ± 0.36 °F
Surface: ± 1.8 °F
Animal: ± 0.72 °F
