POWER INFORMATION

Voltage: 12V – 15V AC

Wattage: 6W

Max Voltage: 15V AC

Lumens: 345 per side

Color Temperature: 2700K, 3000K, 4000K (Selectable)

Transformer: Stratus or Mosaic (sold separately)

The perfect light for any outdoor living space. This sturdy powder-coated aluminum design mounts on any wall with ease. The 6W beam can shine upward, downward, or both. It's completely up to you. With our adjustable white technology, choose between 3 different color temperatures of white after you install, not before you buy. Making this the only LED wall sconce you'll ever need. With a 1 1/8 inch mounting bracket, this light is perfect for pool enclosures, lanais, or any outdoor living space.

- Integrated LEDs that are easily replaceable without removing the fixtures.
- Adjustable white technology allows you to choose between 2700K, 3000K and 4000K at any time.
- Haven Lighting Anti-moisture connections.
