

DIMENSIONS

Our LED feature light is the epitome of style, performance and technology exclusive to Haven Lighting. A striking low-profile design, the custom optics distribute superior brightness while capturing the beauty of your small lawn features and hardscapes. The unique fixture shape is perfect to accent statues, small trees, rock walls or bushes, and is an excellent solution to highlight the architectural elegance of specialty dormer windows, porticos and roofs. These lights have;

- Haven LED technology
- Vertical tilt up to 270 degrees.
- Haven Lighting Anti-moisture connections.
