2 TRANSFORMER  
FUNCTIONALITY  
IN 1 SIMPLE  
PACKAGE

## DIMENSIONS

## TECHNICAL SPECIFICATIONS

### POWER INFORMATION

**Voltage:** 120V AC

**Power Options:** 150W, 300W

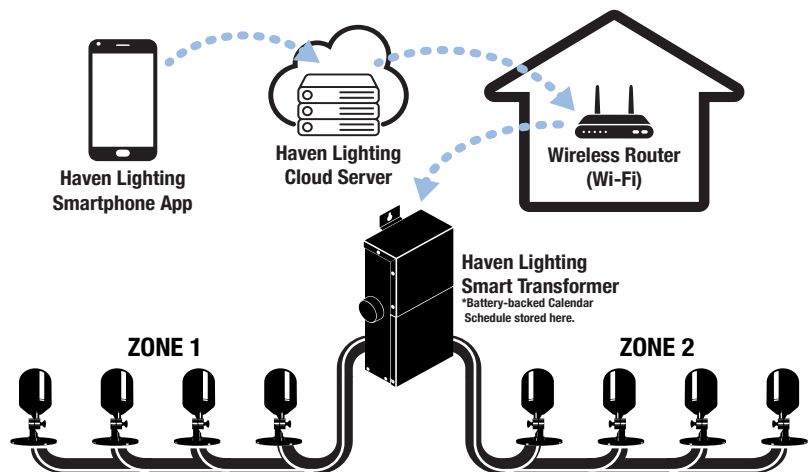

**Output Voltage:** 15V AC

**Independent Zone Control:** 2 Zones

**Note:** This Transformer works exclusively with our 6 Series Standard Line of Landscape Lighting or any other standard low voltage lighting. It is not compatible with our 9 Series WiFi Enabled Line.

**Always disconnect the transformer from the electrical outlet before working on or installing this unit and/or any part of the lighting system.**

Our smart low voltage transformer takes the frustration out of scheduling the on and off times for your low voltage outdoor lighting. Simple scheduling with the Haven app is all it takes. With our Automatic Time Adjustment feature, you won't need to worry about sunrise and sunset times changing throughout the year. It even adjusts for Daylight Savings Time. All the schedules are downloaded to your controller so your lights will never miss a beat even if your internet is down. You'll never be frustrated with antiquated lighting technology again.
