

**DIMENSIONS**

**TECHNICAL SPECIFICATIONS**

**POWER INFORMATION**

**Voltage:** 24V DC

**Wattage:** See chart

**Wiring:** Common Cathode LED configurations (connections to light should be Common, +24V Red, +24V Green, +24V Blue)

**Compatible Controllers:**

- Full Color: Q Series Full Color Duo Controller  
Q Series Full Color Mini Controller  
Q Series Full Color Mini Outdoor Controller
- Classic White: K Series Classic White Duo Controller  
K Series Classic White Mini Controller

**Wire Length:** 15 ft.

**Backing:** 3M Double Sided Tape

**Bright. Flexible. Impressive.**

Use strip lighting anywhere for brightness, emphasis and areas hard to light. This LED strip lighting is dimmable, weatherproof, and perfect for indoor and outdoor installation. Available in warm white or full color, and variable lengths, it provides the ultimate versatility for any lighting project. Use for soffits, tres ceilings, capstone applications and much more.

**FEATURES**

Weatherproof

Dimmable

# OUTDOOR / INDOOR ALUMINUM LED CHANNEL

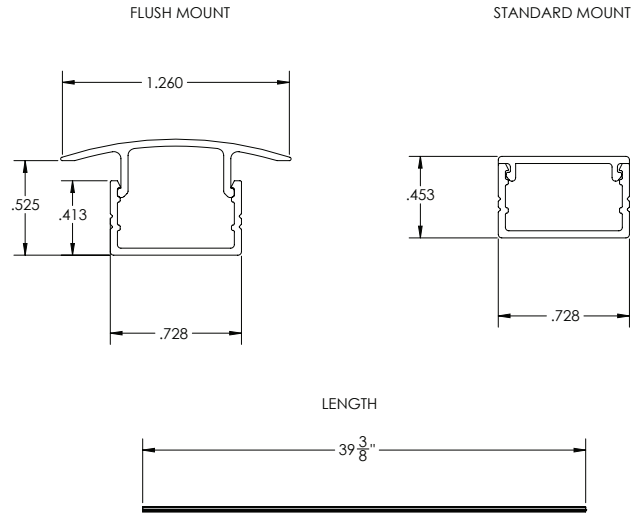

Flush Mount

Standard Mount

## DIMENSIONS

These anodized aluminum extrusions allow you to place our LED strips anywhere. The extrusion blocks the direct view of the LEDs themselves when looking from the side adding even more versatility to the Haven Lighting product lines. Paint them to camouflage them with their surroundings. They are 1 meter in length and come in groups of 5 and 10 or individually.

MODEL NUMBER	QUANTITY	LENGTH	CHANNEL FINISH	COVER STYLE	PRICE
