

OUTDOOR / INDOOR WIRELESS WALL SWITCH

Simple. No Wires Necessary.

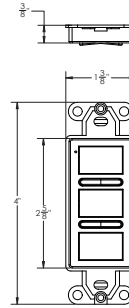

Use our Wireless Wall Switches anywhere you want in your home without adding an outlet or cutting into the wall. No wiring necessary. You decide where the switch will be most used and convenient. Then affix using the two sided adhesive or add it into an existing light switch plate, either option is yours. Choose the appropriate switch based on your controller, either Full Color or Classic White. All switches are available in white, almond and ivory finishes.

Our Full Color Switch has multiple functions. Turn on white, color or turn all lights off. It gives you the flexibility to choose between 20 different colors, and 16 temperatures of white. Never worry about getting the wrong temperature of white light again.

Our Classic White Switch enables you to turn your white lights on and off and dim them.
