

# **Hands-On History Lap-Pak:**

## **Knights**

### **Scope and Sequence**

**Grades: K – 2<sup>nd</sup>**

*The Knights Lap-Pak* offers a hands-on view of the world and life of Knights. Students will learn the ins and outs of being a Knight, whether it's how they became knights, what knights do for fun, the tournaments they're involved in, the weapons they use, and much more! Also included is cultural information such as the Code of Chivalry and the Feudal System! The Lap-Pak is designed to teach students through kinesthetic means, utilizing their senses and motor skills. These studies are geared for younger students who may need more guidance and assistance with the projects, however the projects and reading material included have been kept simple so the students can work toward independence in skills such as cutting, coloring, and project assembly. Along with the projects is an illustrated story booklet, with information on each topic. The story booklet is provided on the CD in a printable version as well as an audio format, narrated for the students to enjoy.

## **I. History / Social Studies (Cultural Studies)**

### **a. Reading text booklet**

- i. What is a Knight
