Revitalize Refresh Restore

SKIN REJUVENATION WITH

MICROSILK®

THE BEAUTY OF MICROSILK® blankets your entire body with billions of oxygen-rich micro bubbles, while giving your skin a luxuriously silky feeling.

MICROBUBBLES

Unlike traditional air bubbles, MicroSilk® microbubbles are small enough to enter pores and remove impurities. Soaking in a MicroSilk® spa is like giving your entire body a facial, **making your skin feel luxuriously, silky and younger looking.**

OXYGEN LEVELS

With more oxygen than regular tap water, MicroSilk® increases the skin's metabolism while promoting skin cell growth. The oxygen-rich microbubbles **improve collagen production**, energize cells, stimulate your immune system, kill bacteria and promote healing.

NEGATIVE IONS

MicroSilk's microbubbles are loaded with negatively charged ions. Negative ions are known to improve serotonin levels and **relax the mind & body.**

- **MicroSilk (Available only on Antigua 52, 45, 33, Barbados 63, Captiva 52, 46, 33, Grand Bahama 52, 45, 33, Nevis 45, 33 & Santa Cruz)**

WATER PURIFICATION

Our water purification system virtually eliminates the need for chemicals. Your skin will feel soft, clean and free of harsh chemicals. Clean spa water made easy...nature's way.

=

The Diamond AOP™ process combines the Nature2® option, Microfiltration, high efficiency Circulation Pump, and the AquaNova™ UVC & Ozone Spa Sanitizer, to create a highly advanced oxidation process (AOP) for water purification.

FEATURES OF DIAMOND AOP:

- * Sanitation lamp is fully serviceable, eliminating the need for AOP unit replacement.
- * Indicator LEDs change colors to provide an alert for the need to replace the UV-C sanitation lamp.
- * The AOP unit utilizes a dedicated Corona Discharge (CD) ozone generator in conjunction with UV-C to provide a highly effective sanitation process.

Artesian Spas brings you the patented in-line FROG® @ease™ system. This breakthrough system in water-care combines Fresh Mineral Water™ with SmartChlor™ Technology to provide cleaner, clearer and softer spa water that's far easier to maintain.
