

SAFETY

Overcharge voltage, over discharge current, short circuit and overheating protection.

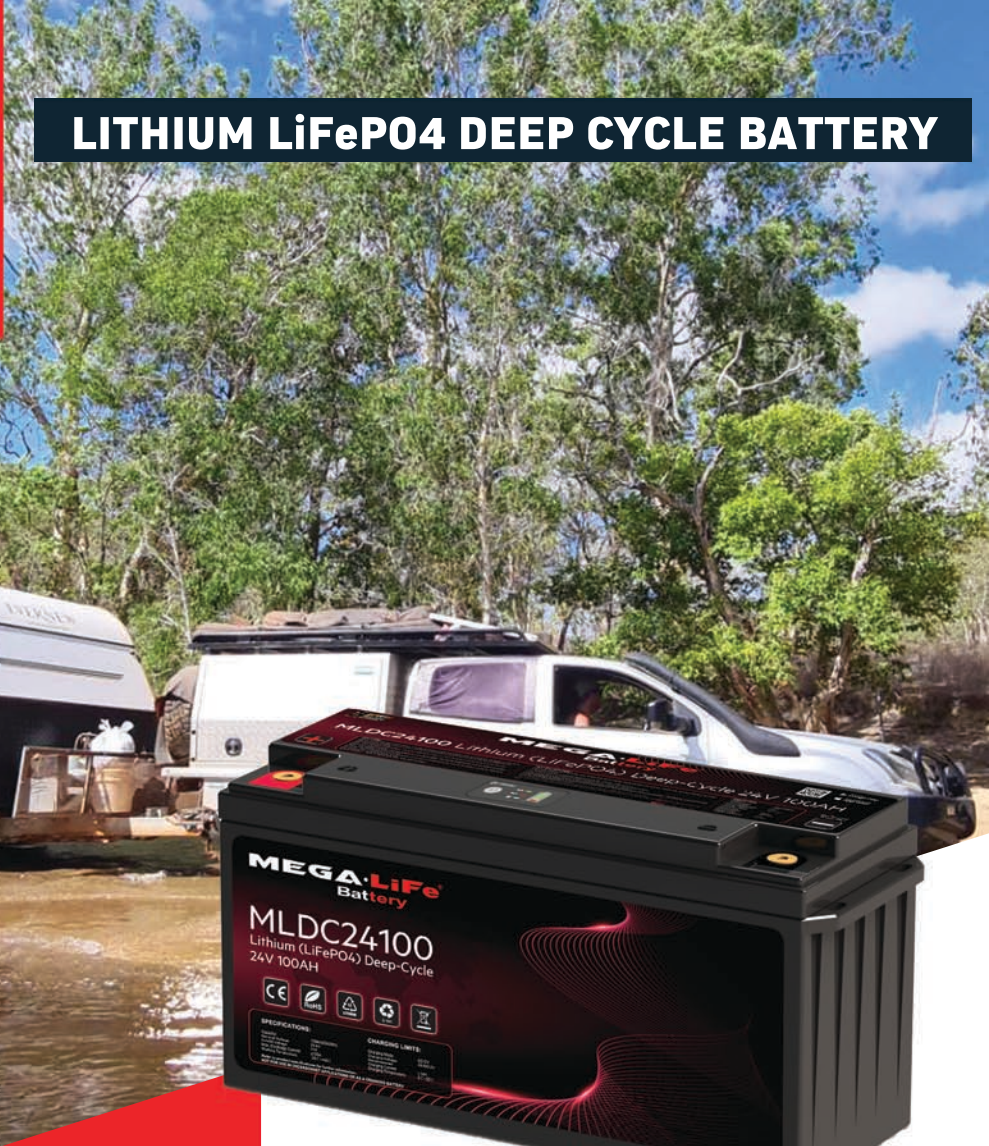

3 YEAR WARRANTY

Full 3 Year Manufacture Full Replacement Warranty

SMART

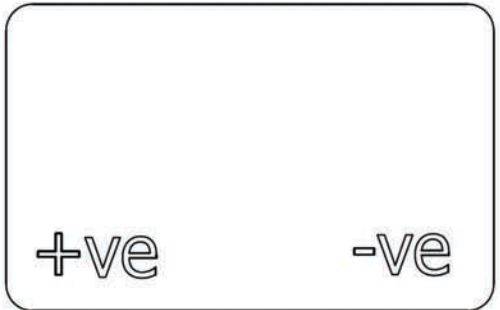

IBMS: Intelligent, integrated battery management system has automatic protection and maintenance functionality

MLDC24100

Battery Specifications	
Model	MLDC-24100
Size(mm)	490w x 171d x 240h
Weight(kg)	22kg
Capacity (AH)	100AH
Nominal Voltage	25.6V
Current Continous/Peak(30s)	100A/500A
Price	\$1,900

Terminal Postion

MEGALiFe DEEP CYCLE:

The MEGALiFe MLDC-24100 is a Lithium Iron Phosphate (LiFePO4) deep cycle battery designed and intended for use in deep cycle applications. They are fast charging with a long lifespan (up to eight times that of traditional acid-based batteries) and have zero maintenance requirements. They are also 1/3 the weight of their lead acid counterparts and have on average 6 times the cycle life at 100% DOD.

SOC Panel:

The inbuilt SOC panel/switch on the top of the battery easily allows you to see the state of charge at a glance and the switch allows you to easily change the battery between standby and Run modes.
