**MEGA-LiFe**

Lithium Iron Phosphate (LiFePO4) battery designed for direct replacement for many popular motorcycles, scooters and ATV's.

This larger size MB unit is often seen in bigger capacity touring bikes like Harley Davidson. It is also more than capable of starting street and race 4cyl engines where fitment style is more suited.

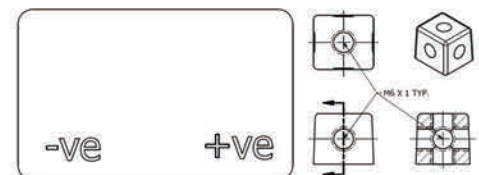

Double the CCA and often 1/3rd the weight of the equivalent size lead acid (AGM, sealed, flooded, etc).

The MEGALiFe reserve cell technology allows you to avoid the issues of a flat battery with the push of a button!
