

# ENGINEMASTER JET ASSISTED ENGINE DRIVEN WATER TRANSFER SYSTEMS

When your property needs a serious jet-assisted pump independent of electrical supply, only cast iron is good enough. Other materials just won't stand up to the extreme pressures common in engine driven jet assisted pumps. Combining the best jet pumps available with the most reliable engines results in the Onga OJ700E and OJ800E.

The OJ-E series gives you the flexibility to draw water from almost any source and location. You can rest assured that if your water supply changes, your OJ can change along with it — with over 40 injector combinations for the Onga Farmmaster range, there's a set-up to suit almost any application.

- Cast iron, heavy duty construction.
- Available with Honda and B&S petrol engines or Yanmar diesel engines.
- Available in shallow well or deep well configuration, with over 40 injector combinations.

### APPLICATIONS:

- High suction lifts from dams, bores & rivers.
- Water transfer.
- Stock watering.
- Tank filling.
- Irrigation where high suction lifts are required.

OJ700E OJ700ES  
OJ800E OJ800ES

PETROL ENGINE DRIVE		
MODEL	ENGINE OPTIONS	HP
OJ700E	Honda / B&S	5.5 / 6.0
OJ700ES		
OJ800E	Honda / B&S	9.0 / 8.0
OJ800ES		
DIESEL ENGINE DRIVE		
OJ700E	Yanmar L-48	4.8
OJ800E	Yanmar L-70	7.0
OJ800ES	Yanmar L-70 e/start	7.0

Based on S801 injector.
