1       UPS 40-120 F         Image: state of the state o	Qty.	Description					
Product No.: On request         The pump is of the canned rotor type, i.e. pump         and motor form an integral unit without shaft         seal and with only two gaskets for sealing.         The bearings are lubricated by the pumped liquid.         In order to avoid problems in connection with         disposal, great importance has been attached to         using as few different materials as possible.         The pump is characterized by:         Speed no:       * 3 speed motor.         * Caramic radial bearing.         * Caramic radial bearing.         * Caramic radial bearing.         * Aluminium alloy stator housing.         Pump housing:       * Cast iron pump housing.         * Stator with built-in thermal switch.         Phase:       The motor is a 1-phase motor.         The standard module is to be connected to the mains supply via external contactor.         Controls:       Relay:         Relay:       without relay         Liquid:       Pumped liquid:         Pumped liquid:       Water         Liquid:       Pumped liquid:         Pumped liquid:       MAA,EAC         Materials:       Pumped liquid:         Approvals on nameplate:       AAA,EAC         Materials:       Pump housing:      <	1	UPS 40-120 F

The pump is of the canned rotor type, i.e. pump and motor form an integral unit without shaft seal and with only two gaskets for sealing.         The bearings are lubricatd by the pumped liquid.         In order to avoid problems in connection with disposal, great importance has been attached to using as few different materials as possible.         The pump is characterized by:         Speed no:       * 3 speed motor.         * Ceramic radial bearings.         * Carton axial bearing.         * Carbon axial bearing.         * Cathon axial bearing.         * Carbon axial bearing.         * Carbon axial bearing.         * Carbon axial bearing.         * Stainless steler rotor can, bearing plate and rotor cladding.         * Aluminium alloy stator housing.         Pump housing:       * Cast iron pump housing.         * Stator with built-in thermal switch.         Phase:       The motor is a 1-phase motor.         The standard module is to be connected to the mains supply via external contactor.         Controls:       Relay:         Water       Liquid							
and motor form an integral unit without shaft seal and with only two gaskets for sealing. The bearings are lubricatd by the pumped liquid. In order to avoid problems in connection with disposal, great importance has been attached to using as few different materials as possible. The pump is characterized by: Speed no: *3 speed motor. * Cerramic radial bearing. * Carbon axial bearing. * Stainless steel rotor can, bearing plate and rotor cladding. * Aluminium alloy stator housing. Pump housing: * Cast iron pump housing. * Stator with built-in thermal switch. Phase: The motor is a 1-phase motor. The pump is supplied with a standard module in the terminal box. The standard module is to be connected to the mains supply via external contactor. Controls: Relay: without relay Liquid: Pumped liquid: Water Liquid temperature range: 10120 °C Selected liquid temperature: 60 °C Density: 983.2 kg/m <sup>3</sup> Technical: Approvals on nameplate: AAA,EAC Materials: Pump housing: Cast iron EN-LI 1040 ASTM 35 B - 40 B Impeller: Statines steel							
seal and with only two gaskets for sealing.         The bearings are lubricated by the pumped liquid.         In order to avoid problems in connection with         disposal, great importance has been attached to         using as few different materials as possible.         The pump is characterized by:         Speed no:       * 3 speed motor.         * Ceramic radial bearings.         * Carbon axial bearing.         * Stainless steel rotor can, bearing plate         and rotor cladding.         * Aluminium alloy stator housing.         * Stator with built-in thermal switch.         Phase:       The motor is a 1-phase motor.         The pump is supplied with a standard         module in the terminal box.         The standard module is to be connected to the         mains supply via external contactor.         Controls:         Relay:       without relay         Liquid temperature range:       -10 120 °C         Selected liquid temperature:       60 °C         Density:       983.2 kg/m³         Technical:       Approvals on nameplate:         Approvals on nameplate:       AAA,EAC         Materials:       Pump housing:         Pump housing:       Cast iron         Endical:       Approvals on name							
The bearings are lubricatd by the pumped liquid.         In order to avoid problems in connection with         disposal, great importance has been attached to         using as few different materials as possible.         The pump is characterized by:         Speed no:       * 3 speed motor.         * Caration radial bearing.         * Caration axial bearing.         * Stainless steel rotor can, bearing plate         and rotor cladding.         * Aluminium alloy stator housing.         Pump housing:       * Cast iron pump housing.         * Stator with built-in thermal switch.         Phase:       The motor is a 1-phase motor. Company name: Created by:

		os X	Date:	28/10/2020	
	Description				
		AISI 304			
	Installation:				
	Range of ambient temperature:				
	Maximum operating pressure:	10 bar			
	Flange standard: Pipe connection:	DIN DN 40			
	Pressure rating:	PN 6 / PN 10			
	Port-to-port length:	250 mm			
	i on-to-port length.	200 mm			
	Electrical data:				
	Power input in speed 1:	440 W			
	Power input in speed 2:	460 W			
	Max. power input:	470 W			
	Mains frequency:	50 Hz			
	Rated voltage:	1 x 230-240 V			
	Current in speed 1:	2.2 A			
	Current in speed 2:	2.3 A			
	Current in speed 3: Cos phi in speed 1:	2.2 A			
	Cos phi in speed 2:	0.87 0.87			
	Cos phi:	0.93			
	Capacitor size - run:	12 μF/400 V			
	Insulation class (IEC 85):	H			
	Enclosure class (IEC 60529):	X4D			
	Others:				
	Net weight:	19.1 kg			
	Gross weight:	19.6 kg			
	Shipping volume:	0.026 m <sup>3</sup>			
	Country of origin:	DE			
	Custom tariff no.:	84137090629206077
