AHM STORY

For over 50 years, American Hat Makers has been dedicated to providing distinctive, luxurious artisan hats made by hand with the finest materials. Our story began in 1972 when Gary Watrous started selling his handmade leather goods out of his Chevy station wagon. Very soon after, Gary moved his backseat leather factory to his ranch, where American Hat Makers operated for decades, as Head'n Home Hats.

Today, American Hat Makers operates out of an 18,000 sq. ft. factory in Watsonville, California. Gary's son, Garth, has since taken the helm of the company and has been a key figure in driving the company to new heights. Gary's daughter in law, Hannah, has assumed command of the global marketing division of the company, and has been paramount in giving the American Hat Makers name a strong reputation around the country and internationally.

American Hat Makers is a leader in the industry, handcrafting the world's finest quality headwear available anywhere. As our company continues to expand, we now offer additional high quality styles from our partners around the globe to complement our existing catalog. We strive to be the best hat company in the world. We deliver timeless designs, excellent craftsmanship, and a lifetime guarantee in everything we do.
