

Recipe Kit Name: Islay Single Malt

Estimated ABV: 8.8% • Estimated OG: 1.077 • Estimated FG: 1.011

5 Gallon Distiller Fermentation Kit

Shopping List

\$40.99

Grain & Sugars:

- 15 lbs Crisp Peated Malt

Not Included in Kit

- American Medium Oak Spiral

Yeast: (Included in kit)

- 2 oz Red Star DADY Yeast

Directions:

Bring 5.5 gallons of water to 155° F. Add your mixed grains slowly, making sure that no dough balls form. If you have a 24" x 24" Grain Steeping Bag, use it here. After all of the grain is mixed in, make sure that you're mash is at 148° F. Let it sit, covered, for 60 minutes. Separate and wash the grain however your system is set up. The grain will absorb approximately 2 gallons of water, so add back 2 gallons of water to get to 5.5 gallons and bring to a boil for 15 minutes. Cool to 75° F and pitch your yeast. Cover with lid and airlock and allow 2 weeks for fermentation to complete for a clean wash. From there, add to your still and distill using your normal process. If you are oak aging, we recommend aging at 125 proof for 2 to 6 weeks using an half of an French Oak Light Spiral per quart, then diluting to 80 - 100 proof, depending upon what tastes the best. Proof down slowly, 10 or so proof at a time, until the Irish Single Malt style whisky tastes exactly how you want it to. Try not to drink all at once!

Style:

Scotch Style Single Malt Smoked Whisky

If you like a smooth, beautiful, smokey Scotch Style Whisky, then this is your stop! Taking a page from a book of world renowned Islay Whisky Distiller's, this recipe boasts Crisp Peated Malt, specifically designed and produced for complex, smoke forward Scotch. Expect deep, brilliant smoke character reminiscent of your favorite peated whisky's, and consider American Medium Spirals soaked in American bourbon to finish your whisky as authentically as possible.
