Directions:

Add steeping grains to your water and allow to steep as the water comes to a boil. At 168° F, remove steeping grains and allow water to come to a boil. Once boiling, turn off flame. Stir in all Malt Extracts and ensure all is dissolved. Turn your flame back on. When it starts to boil again, begin your timer for a 60 minute boil. From there, follow directions for hop and clarifier additions. Cool your wort down to 70 - 80 degrees, transfer to your fermenter, and pitch yeast. Cover with airlock and allow 14 days at 65-70 degrees for fermentation to complete, adding in your dry hops at day 9 of fermentation. Crash chill for 24-48 hours at 40 degrees, then transfer to keg. If bottling, transfer to bottling bucket and add 4 ounces of Dextrose sugar and allow to sit for 1 week at room temperature, then 1 week in the fridge before enjoying.

Style:

21A – American IPA

One of our most award winning and easy-drinking extract IPA's, Victory Dance plays on the classic West Coast bitterness and a citrusy, American hop aroma and flavor. The beauty of this beer is that it's very straightforward, simple in its makeup, and insanely good! While it's probably our most basic IPA, it delivers a complex hop profile between Bravo and Citra, while not getting too crazy or out of control with tons of hop additions or too many steeping grains. Citra delivers big citrus and grapefruit flavors and aroma, with a light, danky backbone and clean, distinct bitter profile from Bravo. Between that and a touch of Victory malt to help build the body and a little malt complexity, it's no wonder that this has always been one of our most popular and award winning Recipe Kits!
