# GET YOUR PHIX

Established in 2016, our involvement in the industry was purely focused to help people quit smoking while providing a culture and lifestyle to do so. We have been helping smokers make the switch to PHIX to find a healthier lifestyle and satisfaction.

Our mission is to manufacture premium quality electronic closed system vapor products. We aim to solve cigarette smokers nicotine cravings and product flaws of existing closed system devices. As a leader in vapor product innovation PHIX was designed, formulated, and engineered to fix these issues.

## PHIX FEATURES

- Flexible and easy to use Closed System Vaping.
- Controlled Power to allow a consistent delivery.
- Convenient Magnetic Charger charges the battery to last up to 220 puffs on a full charge.
- 1 pod last twice as long as the competitors. The average user takes 2-3 days to finish a pod.
- Pass through device allows you to use while charging.

## PRODUCT SIMPLICITY

- Product simplicity is key. We wanted to develop a product with convenience in mind.
- Perfect for the new on-the-go society.
- We kept simplicity for ease of education from our store owners to consumers, and staff to store owners.
- Customers in the past have steered away from large, bulky, hard to use vape products until now.

## POD TECHNOLOGY

Our Pods are constructed with many things in mind. Being from the vape industry, we've learned how to bring out the best flavors and aromas from our juices through our pods internal construction.

- Steel tubing from coil to mouth tip.
- Ceramic coil - minimizes "dry hits" and bring out the best in the flavors compared to using traditional cotton.
- Ergonomic design that fits comfortably in mouth.
- Tamper and child resistance pod packaging difficult to open per FDA compliance regulations.

## PHIX BASIC KIT

### FEATURES

- Overcharge protection chip
- 320mah Grade A Battery
- Battery light indicator
  - Blue
  - Orange
  - Red
- Engraved PHIX logo
- Solid base design
- Juice Window
- Water resistant components
- Can be used as pass through

### INCLUDES

- PHIX Battery
- PHIX Charger

### AVAILABLE COLORS

- Black (shown)
- Rose Gold
- Electric Blue
- White
- Red

## PHIX STARTER KIT

### FEATURES

- Overcharge protection chip
- 320mah Grade A Battery
- Battery light indicator
