

OMNI DTF

OmniDTF - Direct to Film Printer

Print Transfers Up To 14.5" Wide

OMNI DTF

Print Transfers Up To 14.5" Wide

Print resolutions up to 720 x 3600 dpi!

Specially formulated Gamut Plus Inks - Save Ink With Our Bulk Ink System

The OmniDTF Printer features High Capacity Ink Bottles! - 250 ml capacity for each color and 500 ml for white ink.

One-pass Technology

One-Pass allows dark garments to be fully completed without the need to return to do the cmyk layer. The white print heads and color heads are tuned to work together to print the base and colors at the same time so that each garment being printed is finished in one pass.

Dryer Included - Automatically Applies Adhesive, Shakes and Cures

Quickly and easily cure your transfers with the included dryer. Evenly heat and distribute adhesive powder to your transfers.

Dual Print Heads

Dual print heads make printing your transfers quick without compromising print quality!

WURK Flow Compatible

The OmniDTF is compatible with Wurk™ - a comprehensive web based production management solution that enables a truly automated garment printing process from picking blanks to shipping a complete order. Wurkflow Re-imagined™
