

Shell Model

\$10,995.00 Base Price

The Shell Model Camper is the most durable, lightest weight, lowest profile, all welded aluminum "flex-frame" Pop-Up Camper in the RV industry. This basic model provides shelter from the weather and a comfortable place to sleep with room for storage.

Standard Features

Queen Sized Extended Cab-over Bed w/ Mattress	Large Passenger Side Window
Battery Cabinet & Aux. Camper Battery System	Finished Interior Walls and Floor
(1 Deep Cycle Battery & Separator)	Fire Extinguisher
LED Interior Lights	Screen Door
Outside LED Porch Light	Jack Brackets Only (steel brackets)
12 Volt Accessory Plug and USB Outlets	Gas Strut Roof Lift Assists (exterior)
Basic Roof Vent	Privacy Curtains

Northern California Factory & Showroom 109 Pioneer Avenue, Woodland, CA 95776

Shell Model

The Four Wheel Pop-Up Camper Shell Model is available in all of our current model sizes (except flat bed models). We have sizes to fit most all trucks on the market today. The Grandby Shell, which fits full size, long bed trucks, weighs in around 975 lbs. The Shell Model for mid-sized trucks is around 795 lbs. All of our shell models have the same construction that allows the camper to flex with the torque generated by the bed of the truck while still maintaining its structural integrity.

A variety of options are available to assist our customers in creating a camper that best suits their particular needs. Additional options are also available for the shell models (due to the open interior) such as a small driver's side window, a couch or dinette seating installed on the passenger's side, or the forced air furnace w/ thermostat and propane tanks.
