

free2bTM FOODS

Is Now Dairy-Free and Vegan!

We are so excited to announce that free2b Foods is now both a **Top 8 Allergen Free and vegan company!** That's right! We have ditched the dairy!

We have been working tirelessly for the past year to come up with new recipes that are Top 8 Allergen Free and are just as decadent as our previous chocolate cups! We are thrilled with the results and hope you will be too.

We also recently created delicious and decadent chocolate bars in three flavors that are also Top 8 Allergen Free!

For more information, ingredient lists, and nutritional panels please check out the “products” section of our website.

FACILITY INFORMATION:

All of our products are made in a **dedicated Top 8 Allergen Free facility** in Boulder, Colorado! Our chocolates are made by a passionate team who takes great pride and care in delivering you the most delicious and safe treats for you and your family.

BE MINDFUL! PLEASE READ THE LABEL!

Keep in mind, that all of our **new dairy-free** recipes will be available online right away on **free2bFoods.com**. However, it will take several months before they start to appear in neighborhood stores.

Please be sure to read the label when purchasing in-store! There will be a period of time where both the dairy and dairy-free recipes are on store shelves. Our new dairy-free version has a call out on the front of the package.

You will also notice that we changed the color of our package on “milk” chocolate cups. The new dairy-free version is **PURPLE!** (Like in the group above)

If you have any questions please feel free to email us at hey@free2bFoods.com
