When mounting your PoE Camera outdoors, you are suggested to install the waterproof lid for it. You may follow the steps below for installation.

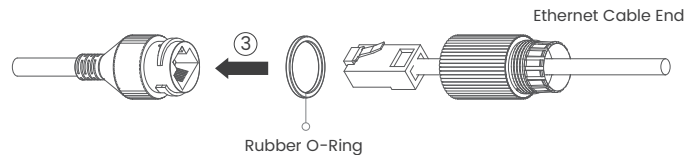

Step 1 Thread the Ethernet cable through the top cover and then the waterproof connector.

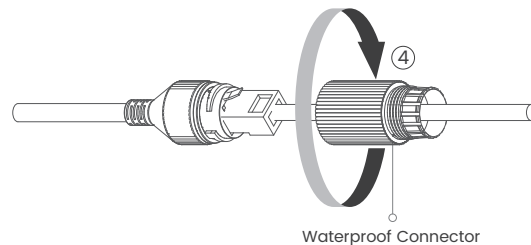

Step 2 Put the rubber seal ring around the Ethernet cable between the top cover and the waterproof connector.

NOTE:

The rubber seal ring provided has been cut. If not, you may manually cut it.

Step 3 Put on the rubber O-ring to the Ethernet port of the camera and plug the Ethernet cable into the Ethernet port.

Step 4 Align the waterproof connector with the Ethernet port, then twist it clockwise to tighten the two parts.
