build instructions for:

Fire Truck

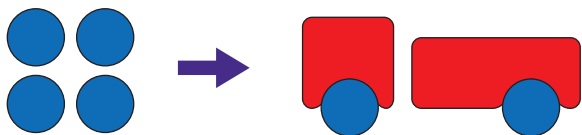

colors needed:

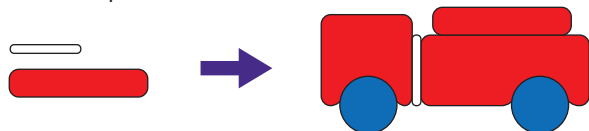

- 1 Create a rectangle and taller square out of red dough for the truck's body. Create indents in the dough for wheels.

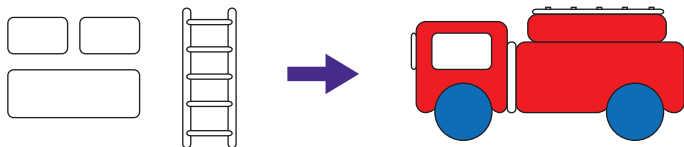

- 2 Roll out four pieces of blue dough for the wheels and place within the indents of the truck.

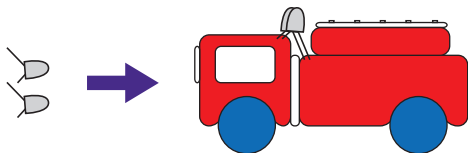

- 3 Flatten a piece of white dough and place between the two truck body pieces. Create a small red rectangle and attach to the top of the truck.

- 4 Create the ladder and windows using white dough and attach to the truck.

- 5 Insert the short legs of LEDs into the head of the truck and the longer legs into the truck body.

- 6 Last, insert the red wire from the battery into the back of the truck and the black wire into the front. Turn on the battery holder to light up your fire truck!
