

squishy circuits

build instructions for: Flashlight

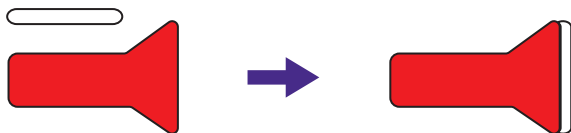

colors needed:

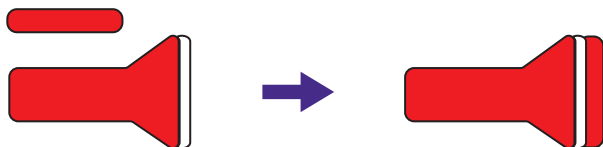

- 1 Create a rectangle and a wide triangle out of red dough. Combine both pieces so they form the shape below.

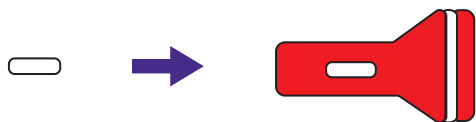

- 2 Next, roll out a long piece of white insulating dough. Attach to the end of the flashlight.

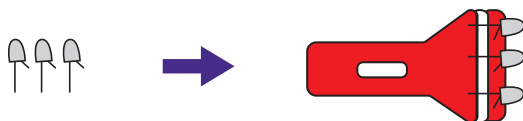

- 3 Roll out a larger rectangle of red dough to create the head of the flashlight. Attach to the white insulating dough.

- 4 Rolling out a smaller piece of white dough, create a small rectangle for the button. Attach to the top of the flashlight.

- 5 Insert the short legs of LEDs into the head of the flashlight and the longer legs into the handle.

- 6 Last, insert the red wire from the battery into the end of the flashlight handle. Put the black wire in the the head of the flashlight. Then, turn on the box to light up the LEDs.
