squishycircuits.

Mouse and Cheese

colors needed:

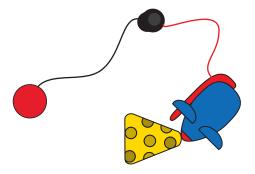

2 Next, create the base of the mouse by forming a large tear drop shape. Using the red dough, roll out a nose and tail for your mouse.

3 Using the blue dough, create two ears. Mark the base of the mouse and attach as shown.

4 Using the red dough, create a ball. Attach the black wire from the buzzer to the red ball of dough and the red wire to the side of the mouse.

5 Insert the black wire from battery holder into the ball of red dough and the red wire into the cheese. Turn on the battery holder and watch your mouse nibble cheese!
