# BRICK HANDLER

MODEL NO. 4011

Having durable, tough grip is essential when handling materials such as bricks, cinderblocks and other masonry materials.

BrickHandler® gloves feature a one-piece, anti-slip grip that is double-stitched onto synthetic leather with Kevlar® thread for added durability and longevity. Back-of-hand, knuckle and finger padding adds abrasion and light impact resistance on top of form-fitting spandex, which ensures breathability. The terry cloth thumb absorbs moisture to keep hand dry, or to easily wipe brow.

## FEATURE KEYS & BENEFITS

- 1 **Anti-Slip Grip:** adds heightened grip and dexterity.
- 2 **Kevlar® Double Stitching:** adds durability and longevity.
- 3 **One-Piece Palm:** adds durability, longevity and reduces risk of palm damage to the glove.
- 4 **Adjustable Short Cuff:** ensures snug fit while in use.
- 5 **Terry Cloth Back on Thumb:** absorbs moisture to keep hand dry, or for wiping brow.

MASONRY • BRICKLAYERS • ROOFING • CONSTRUCTION WORKERS • WOOD WORKERS & CARPENTERS • FORESTRY • WAREHOUSE WORKERS • LOGGERS.
