

# HANDMAX PRO

MODEL NO. 6161

Workers everywhere have dreamed of an all-around impact glove that can balance protection with dexterity. The HandMax Pro boasts high level cut and puncture protection with flexible impact protection that won't stop you from getting the job done.

The HandMax Pro's lightly padded synthetic leather palm is reinforced with a high density cut resistant base layer that is undetectable to the wearer. This invisible layer provides critical protection from sharp edges and is balanced with flexible impact protection on the back of hand to reduce the severity of pinch and caught between injuries. The continuous protection from fingertips to knuckles effectively shields high areas of injury with segmentation that allows full range of motion. These curved Cestus finger seams reduce hand strain when jobs stretch on for hours. Slim Ranch cuff with pull on loop effectively vents the glove without allowing debris entry for fast donning.

## FEATURE KEYS & BENEFITS

- 1 **Breathability:** Two way stretch spandex back of hand material keeps glove breathable.
- 2 **CestusAero™:** Ventilated impact protection maximizes glove breathability.
- 3 **Flexible TPR:** Targeted Impact Protection on fingers lets you work in tight spaces.
- 4 **High-Level Cut Resistant Palm:** High Density Cut Resistant Base Layer maximizes wearer protection from avoidable lacerations.
- 5 **High Dexterity:** Synthetic Leather Palm Outer is Oil Resistant and Hand-Washable.
