

FireAttack®

MODEL NO. 1000

The FireAttack® is the first true 3D ergonomically-designed structural fire-fighting glove. Our patented and proprietary technological materials offer superior tactility, dexterity, breathability, and enhanced thermal protection. Made with industry leading nine-layer technology, the FireAttack® provides unparalleled safety without compromising dexterity. It includes KP-Hybrid® material, which is the thinnest tactile heat resistant surface bonded to a glove on the market. Plus, our fast-drying, lightweight VX™, Thermo Plastic Rubber shielding, curved finger seams, and Hi-Vis striping make for a versatile all-in-one glove, fine-tuned for our fire fighting heroes.

FEATURES

- **Triple Layered Silicon Printed Kevlar Palm** - Increased grip when wet
- **Fast-drying VX™** - Maximizes dexterity and minimizes hand fatigue
- **Padded Knuckles** - Provides impact protection
- **Flexible TPR (Thermo Plastic Rubber)** - Shields against impact injuries
- **Slim Ranch Cuff** - Ensure debris stays out of glove
- **Inner Sleeve Guard** - Internal breathable, waterproof, windproof, anti-microbial, element resistant liner
- **Hi-Vis Striping** - Provides visual identifiers in low-light and emergency situations
- **EZ Pull-On Loops** - For fast dress-out and easy storage

USES

- Search & Rescue
- Extrication
- Heavy Construction
- Gas & Oil Drilling
- Tool Pushing
- Rigging
- Mining

TESTING & CERTIFICATION

1971 : 2013
