H2O ATTACK[®]

S10

MODEL NO. 1006

The H2O Attack S-10 was created with water rescue in mind. Flexible impact shields (TPR) protect fingers from impacts down to the pinch points. While the hard-shell polycarbonate armament defends knuckles from hidden debris. The Hi-Vis neoprene adds wind resistance, and breathability when dry, and a thermal buffer when wet. the cut level 5 Slashweave™ base palm layer minimizes the risk of lacerations and cut injuries, while the Sonic-10® 3d landscape outer palm gives additional grip control.

SIZES: S - 2XL

Testing & Certification

EN388

3X43FP

USES

Rigging • Mining • Extraction

Heavy Construction • Tool Pushing

Gas & Oil Drilling • Search & Rescue
