

HandMax[®] Pro

MODEL NO. 6161

The HandMax[®] Pro sets the new standard for breathability and protection. The high dexterity palm surface has light palm padding for wearer comfort. A hidden layer of our Slashweave™ material protects hands from cut and puncture injury. Double stitching on the palm reinforces common wear points without creating excess palm bulk. The HandMax Pro[®] uses “Ventilated TPR” to increase impact protection while maintaining maximum breathability. Curved finger construction helps limit user fatigue and increase dexterity. High-Visibility fabric and a reflective strip on the cuff maximizes hand visibility providing vented, easy donning.

FEATURES

- **Pre-Curved Fingers** - Molded to fit the natural curve of your fingers at rest to fight against hand fatigue
- **Flexible TPR (Thermo Plastic Rubber)** - Shields against impact injuries
- **Two-Way Stretch Material** - Provides comfort and breathability
- **CestusAero™** - Adds impact protection, while remaining ventilated
- **Synthetic Leather Palm with Double Stitching** - Adds abrasion resistance, durability and longevity in high-wear areas

USES

- Search & Rescue
- Barrel & Drum Handling
- Bat Chain Pulling
- Gas & Oil Drilling
- Heavy Construction
- Tool Pushing
- Fracking
- Rigging
- Mining
- Extraction
