

DEEP IMPACT DRIVER

LEATHER SERIES

MODEL NO. 3209

FEATURES KEYS & BENEFITS

Flexible TPR: Adds complete metacarpal protection and continuous coverage from knuckles to fingertips, including extensive web and thumb coverage.

Premium Goat Leather: Soft, yet more durable than other leathers.

High-level Cut Resistant Palm: Inner high density cut resistant layer maximizes protection against unnecessary lacerations.

Rancher-Cuff Design: Ensures gloves are easy to put on and take off.

Everyone loves leather, but until now, it has been unsuitable for heavy industry use. The Deep Impact Driver's flexible impact protection and cut resistant base layer have beefed up up classic goatskin gloves for nearly any situation.

Goat-skin leather outer is bolstered with an invisible high density cut resistant base layer that guards wearers from cut and puncture injuries. The key thumb and ranch cuff feel familiar, but the addition of flexible impact protection from fingertips to knuckles effectively shields high area of injury with segmentation that allows full range of motion. These curved Cestus finger seams reduce hand strain when jobs stretch on for hours.
