

DEEP GRIP®

KOOL

PRO SERIES

MODEL NO. 3056

FEATURES KEYS & BENEFITS

Flexible TPR Shields: Impact resistance for back of fingers down to the fingertips, thumb, knuckles and metacarpals.

Skid-X Grip: Adds oil, water, and petrochemical resistance, as well as heightened grip control in wet or oily environments.

One-piece Palm with Kevlar® stitching: Adds durability and longevity.

Long-Cuff Design: Adds protection, comfort and "tear-away" ability with heavy machinery.

Curved Fingers: Matches natural contour of hand for less hand strain.

Thin Design: Fewer layers adds comfort for use in hot weather.

When oil-and-gas hands asked for breathable gloves suited for hot weather, we developed the Deep Grip™ Kool. With fewer layers of fabric, Deep Grip™ Kool offers the same protection as Deep Grip™ and keeps hands comfortable in hot-weather conditions.

Flexible Thermoplastic Rubber (TPR) impact shields on the back of the glove add impact protection that bends with the fingers, and offers continuous protection from finger tips to wrist. The oil-resistant, one-piece Skid-X™ grip is double stitched with Kevlar® thread stitching for durability. The neoprene long cuff covers the wrist, while allowing the user to pull out of the glove if caught in a pinch or machinery.

- OIL & GAS REFINING • EXTRACTION • FRACKING • MINING
- BARREL & DRUM HANDLER • BAT CHAIN PULLER
- SEARCH & RESCUE • HEAVY CONSTRUCTION • DEMOLITION
