

DEEP GRIP® KOOL

MODEL NO. 3056

These gloves were designed to ensure strong grip control and protection for people who work on hazardous job sites. Flexible impact shields add impact protection that bend with the fingers for continuous (and comfortable) protection from finger tips to wrist. The oil-resistant, one-piece palm is double-stitched to the glove with Kevlar® thread for increased tactile grip strength, durability, and longevity. The neoprene long cuff wrist allows the user to pull out of the glove, if caught in a pinch or machinery.

FEATURES

- **Pre-Curved Fingers** - Molded to fit the natural curve of your fingers at rest to fight against hand fatigue
- **Flexible TPR (Thermo Plastic Rubber)** - Shields against impact injuries
- **Skid-X Grip™** - Adds oil, water and petrochemical resistance and heightens grip control in wet, oily, or dry environments
- **One-Piece Palm with Kevlar® Stitching** - Adds abrasion resistance, durability and longevity in high-wear areas
- **Long-Cuff Design** - Allows for “tear-away” ability with machinery
- **Thin Design** - Fewer layers adds comfort for use in hot weather

USES

- Search & Rescue
- Extraction
- Heavy Construction
- Barrel & Drum Handling
- Demolition
- Rigging
