

DEEP GRIP®

WINTER

MODEL NO. 5056

Hazards on job sites that operate in cold weather are increased as the temperature dips, leading to the need for protective gloves with excellent grip and insulation. Deep Grip® Winter gloves have a one-piece palm that is double stitched onto synthetic leather with Kevlar® thread for added durability. The durable, yet comfortable, interior lining insulates the glove, while a waterproof membrane ensures hands stay dry and warm. Flexible shields add impact protection that bends with the fingers and offers continuous protection from finger tips to wrist.

FEATURES

- **MicroSable Interior Lining** - Adds insulation and resists pilling for added comfort and longevity
- **Flexible TPR (Thermo Plastic Rubber)** - Shields against impact injuries
- **Skid-X® Grip** - Adds oil, water, and petro-chemical resistance, as well as heightened gripping power for wet, oily or dry surfaces
- **One-Piece Palm with Kevlar® Stitching** - Adds abrasion resistance, durability and longevity in high-wear areas
- **Long-Cuff Design** - Adds protection, comfort and “tear-away” ability with heavy machinery

USES

- Search & Rescue
- Barrel & Drum Handling
- Bat Chain Pulling
- Gas & Oil Drilling
- Heavy Construction
- Tool Pushing
- Fracking
- Rigging
- Mining
- Extraction
